DETAILED ACTION

Continued Prosecution Application

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 06/08/2007 has been entered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-9 and 11-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Rosenberg (U.S. 4,960,419).

Rosenberg discloses the claimed invention in figures 1-4, a round blade (4) mounted on the distal end of an elongated shaft (2,8) and a suction interface (6) mounted on the proximal end of the elongated shaft (2,8); wherein the suction interface (6) is for fluidly communicating with the suction source (at 30) so as to provide a suction at the round blade (4) (see col. 3, lines 46-54); wherein a blade end (at 5) of the elongated shaft (2,8) extends into the round blade (4) approximately on third to one half the diameter of the round blade (4).

Response to Arguments

1. Applicant's arguments filed 06/07/2007 have been fully considered but they are not persuasive. Applicant's arguments with respect to claims 1, 11, and 12 have been considered but are moot in view of the new ground(s) of rejection.
